Work Experience

antone.ca

June 2015 – Present

Freelance Designer (Toronto, ON)

Providing architectural services from design consultation to permit drawings. Providing a range of design specialties from residential additions to restaurant renovations in Southern Ontario. I have produced working drawings for construction purposes and coordination with engineers and technicians for completed permit applications. In addition, I can provide interior design solutions to existing spaces to enhance the quality of space.

BBB Architects Toronto Inc.

Intern Architect (Toronto, ON)

May 2017 – Present

After completing my Master's Degree at Ryerson, I returned to BBB to work on various design and construction phases of large-scale arena projects under the Intern Architect Program with the OAA. My responsibilities are to work closely with the client to ensure all their needs were met while interfacing with consultants to coordinate building systems integration. Additionally, I contribute to peer-review analysis to provide feedback based on my arena expertise on design refinement and value engineering services.

Work Experience (con't)**BBB Architects Toronto Inc. // SCI Architects P.C.***Project Coordinator / Design Associate (Los Angeles, CA) April 2013 – August 2015*

Employed as the On-Site Project Coordinator on the 110-million dollar renovation of the historic Los Angeles Forum. Provided Design Development, Construction Documentation and Contract Administration services for a fast-track 10-month construction schedule. Engaged with the client, project managers, consultants and contractor on a daily basis to ensure the project budget and schedule maintained. Additionally, was hired on as a full-time on-site architect for the first year of operation of the building to provide design enhancement opportunities for both the artist and guest experience.

Junior Designer (Toronto, ON & New York, NY) June 2010 - April 2013

Relocated to New York City working under the Project Architect for the Madison Square Garden Transformation. Provided Contract Administration and On-site Instruction for the 1.1-billion dollar project. Prior to relocating to New York City, I specialized in Design Development, Working Drawings and proposals for various Community Centers, Hockey Arenas and Performance Halls in Canada and the United States.

Ryerson University*Architecture Workshop Technician (Toronto, ON) September 2009 - April 2010*

Provided assistance and support for the Workshop located in the Architecture Building of Ryerson University. Assisted in the operations of woodworking machinery, daily maintenance and support for students throughout the undergraduate program. Independently set-up the framework for the digital design lab including, calibration and database of materials for laser-cutters, scheduling and operating the ABS 3D Printer and support for plexi-glass vacuum forming machine.

Adamson Associates | Architects*Architectural Technologist (Toronto, ON) April 2008 - August 2008*

Employed in the summer of 2008 to work with the team refining the Construction Documentation for Tower 2 of the World Trade Center Redevelopment Project. Coordinating preliminary construction scheduling, revising working drawings and organization of OAC correspondence with Design Architect, Foster & Partners and the Port Authority of New York & New Jersey.

Svedas Koyanagi Architects Inc.*Architectural Technologist (Burlington, ON) April 2006 - August 2007*

Working in an office of seven employees under the direction of two Principle Architects for projects specific to the Hamilton and Halton Catholic and Public School Boards. Provided support and assistance as a draughtsman on numerous new institutional projects and renovations in various phases of design including, Design Development, Working Drawing, Construction Documents, Contract Administration with an emphasis on Bid Tendering.
